**CREDITED RATES OF RETURN**

At the request of many authorities, we report, on a monthly basis, the credited net rates of return of the twenty-eight investment funds provided under your Retirement Plan. In no way is this information meant to encourage or discourage "playing the market," but merely is to report what has occurred while waiting to receive your quarterly statement. To interpret the chart, the actual credited net rates of return for each month are listed. The next column represents the cumulative year-to-date at the end of the month listed. The funds are subject to market fluctuation; therefore, we are unable to predict the rates of return. For the benefit of Plan participants, the following funds are listed in the order of investment risk with the Fixed/Stable Value being the least amount of risk and the REIT/Real Estate Fund the greatest. This same information is available when you access your personal account on the web site under "Fund Information". This summary has been updated through **January 2020**.
